WASHINGTON, D. C., SATURDAY, NOVEMBER 9, 1907.

## ALL EYES NOW ON THE EMPIRE STATE

Republican Organization Cut nessee reunion, which held its last day's Comber Smashes Three of Up Into Factions.

LEADERS ARE WORRIED

Been Declared.

Gov, Hughes Sticks to Official Business and Does Not Mix with Organization's Affairs-Chairman Barnes Admits Seriousness of Split-Assem-Bearing on National Situation,

New York, Nov. 8 .- A good many Republican eyes are now directed toward the situation in New York State. Secretary Taft, of Ohio; Senator Foraker Col. W. A. Montgomery, of Edwards, ing speeder Lusitania, of the Cunard and Senator Dick, of the same State; Miss. Senator Knox, of Pennsylvania; Senato of New Jersey; Vice President Fairbanks, of Indiana, and Speaker Cannon, of Illinois, and their friends are eager to know, it was learned to-day, the prospective situation in the State as repre sented in the Republican National Convention next year. A good deal of pros pecting has been done since election day.

These eminent Republicans and their representatives have learned that there is no head to the Republican organization of the State, such as in the old days was represented by Fenton, Conkling, and Platt. The organization is cut up into factions, headed by Woodruff, President Parsons, of the New York Republican county committee; William Barnes, jr. of Albany; Louis F. Payn, of Chatham; Francis Hendricks, of Syracuse; George W. Dunn, of Binghamton; George W. Aldridge, of Rochester; Postmaster Greiner, of Buffalo; Representative J. Sloat Fassett, of Elmira; Benjamin B. Odell, jr. of Newburgh, and William L. Ward, o West Chester, and former Gov. Frank S. Black, of Troy, is not without his follow ing. There is no compact, while there is a singular lack of cohesion. There is no open warfare at the moment.

Gov. Hughes, forgetting all the traditions of his office, sticks closely to his the State. He is not insensible, stated, to the very general condemnation to the first year of his administration. affairs of his party.

Situation Was Discussed.

Mr. Barnes joined Chairman Woodruff Maria Stutz. Gordon and later there were talks with Mr. Ward, of Miller, followed the sisters to the city man for the State. All the notable Republicans in the organization, either individually or collectively, have discussed the prospective situation in the organization, so far as it may be outlined at the anoment in the national convention at the opening of this article. There have been scores of private conversations and dozens All this must come to a head some day,

It was averred to-day, and it may come spot when the decision of the court was to a head, it was added, sooner than many expect. For instance, Mr. Barnes, after his talk

with Mr. Woodruff and Mr. Ward, said: "The Republican party in the State all that we cannot afford to have further to treat her badly. Things went from factional differences. All of the wrinkles bad to worse. Finally the husband was are to be ironed out, just how it is diffi- apprehended for forging checks and was cult to say at the moment. But there is to be no trouble in the State, no factional penitentiary. fights over delegates for the national convention, if it can be avoided.'

Mr. Barnes went on to make the following predictions: Speaker Wadsworth to succeed himself as speaker this winter; Edwin A. Merritt, jr., of St. Lawrence, to be majority leader of the assembly, and Ray B. Smith, of Syracuse, to be clerk of the assembly.

It has been announced previously that Col. Archie E. Baxter, of Elmira, and Mr. Smith had already begun to pledge probable Republican assemblymen to their aspirations, Col. Baxter to succeed him-self as clerk and Mr. Smith to supplant Col. Baxter. The pledging of Republica going on, notwithstanding Mr. Barnes' prediction that Mr. Smith will succeed Col. Baxter. Mr. Barnes, however, speaking more on this subject, spoke very positively, indeed, almost like a boss, when

Understanding to Be Carried Out. and Smith. Smith will be elected clerk unanimously. Baxter has no support whatever; the understanding was last year that he should be chosen and then retire. He says he did not agree to any and will be carried out."

Mr. Smith is one of the chief lieuten-County. Col. Baxter did not have the unqualified friendship of Chairman Woodruff last year, and he had the open hostility of Representative Fassett, of Elmira. State committeeman for the district in body was blown to bits. which Col. Baxter lives, made a formal protest to Mr. Woodruff against Col Baxter. The trouble was patched up the time, and it was generally believed that Col. Baxter was to retire this year from the place he had held for half ; dozen sessions at Albany. Col Baxter however, reiterates that he never agreed

to any such arrangement. The make-up of the assembly com be chairmen of the important committees pices of the Chicago Horticultural Soof the assembly will have an important ciety. bearing on the national situation next year, so far as the selection of delegates to the national convention is concerned Ali wheels are within wheels in litical organization, and many Republi- honorable mention were the Alice Roosecans of national repute are to have their velt blossom, entered by a Denver florist, eyes steadily fastened on Albany this and the Miss Rhea Reid rose, from Richmond, Ind. Down the Record.

Crest of Wave Breaks Over the Bridge Sixty Feet Above the Water Line-Faster Time Will Be Made in Fair Weather, Say Officials-Now Awaits the Coming of the Mauretania, Which Sails Next Saturday.

New York, Nov. 8 .- A tempest that night have stalled the ordinary liner would have had little effect on the tower-Line, if she had not plunged her nose directly under the ferment. She encoun tered this retarding comber at 5 o'clock on Thursday afternoon, when a few of the passengers were thinking about eating dinner. Most of them had no thoughts on that subject, as the motion of the ship was a little too strenuous for anybody except one with a deep-sea appetite

and experience. The great ship, descending the declivity of a wave that Capt. Watt said was not inder forty feet in height, scooped up A part of the crest invaded the bridge more than sixty feet above the water line when the ship is on a level keel, smashing three windows on the port side CLASS of the bridge and slightly injuring naval seaman who was thrown down by Melson was cut on the hands by flying

Plunges Through Storm. Notwithstanding the lambasting of the ements, the Lusitania made good the declaration of the line that she would cut down on this trip her record of 4 days 19 hours and 52 minutes, coming this way. She beat that record by a mere matter of 1 hour and 12 minutes. through the storm as no ship of ordi-

nander trusted in her gigantifreeboard and her general sturdiness to master even the phenomenal seas that she found bristling in her course. have cut nearly three hours off her for- the problem of corporation regulations.

She covered a course of 2,781 miles at an hourly average of 24.35 knots. by the sea, and later reported the cir- It is a remarkable tribute to the navi- bridges and giving a free hand to Theo cumstances to the irate husbands, who gating skill of Capt. Watt when it is dore I. The class did not applaud Prof. met them at the wharf upon the return considered that in the three trips to Drake of the steamer. Both of the young wo- this port, he has not varied his course by more than two or three nautical miles. He has always taken the farther northern route compatible with safety Seldom has any liner skimmed so closely

Besides breaking the trans-Atlantic record in speed, the Lusitania also knocked out all records as a gold-carrying craft, announced. He came forward and volun-teered to accept the divorced girl as his \$12,000,000 in bar and coin. More than engaged abroad by American bankers at the beginning of the financial trouble

Carefully Counts the Cases.

There were in all about 24 tons of spe eles, stored in 334 steel-bound wo cases. Purser Joseph Lancaster checked each case as it was brought out of the vault, and refused to talk to anybody until every bit of the gold had been put ashore. Detectives and men in uniform were on hand, but their services were not really required, as nobody attempted to carry away any of the cases, weighed more than any ordinary man foregoing assertion to-day in this city. could negotiate successfully even on short journey. Five double and two single trucks took the treasure to its destination in the city. John G. Dunlop, a director of the com

senger aboard her. He said he was thor-Miller has for the second time courted oughly satisfied with her performance, and that if it had not been for the storm cars, a son of the couple, has figured onspicuously in bringing about the happy speed of 24.50 knots. She had been built, he said, to attain the speed of 24.75 knots, and that he had no doubt that she would finally make it and possibly a bit more. Julia Marlowe, the actress, who ha een on a four months' vacation, said she had the impression when the tania shipped the big comber, that she had run into a rock. She said she had had the longest vacation of her life, and that she enjoyed it thoroughly. Patrick Campbell said that she and her dog, Pinky-Panky-Poo, had been much upset by the bad weather.

Blades Not Broken Off. Thomas Bell, managing engineer of the Cunard Line, who was also a passenger by the Lusitania, said it was not true that the blades of her turbines broke off in great quantity. At the last examination of the Carmania's blades, they were found to be intact, and Mr. Bell said his impression was that this would also be the case with the Lusitania's turbines when they were examined next July by British commission appointed for that

The agent of the Cunard Line, Vernon H. Brown, announced several weeks ago that the Lusitania would do better on each succeeding trip, until she had attained the climax of her power. It is the impression of the engineers of the line that his final triumph will make her a 25-knot ship from port to port. They have no loubt that she will fulfill all the requirements of the British admiralty and win the great premium that the government has guaranteed for a ship of this speed. Mr. Brown has even higher hopes for the Maurentia, which sails for New York rom Liverpool on November 16, and which credited with a trial trip speed of more than half a knot better than that of the

The Lusitania is the first liner that has ever averaged more than 600 knots a day on an entire trip. According to her log she covered 21 knots on the fragment the hour before the end of the nautical day that she left Queenstown. Thereafte her daily runs-and coming westward that means a period of 24 hours and about 60 minutes-were 606, 616, 618, 610, and to the Sandy Hook lightship, off which she arrived at 1:14 a. m., 310 miles.
